

Schools and Universities: Building Toward the Future

Community

Our community is where we live and raise our families. Being in the middle of the Bible Belt, a major part of our community is our religious facilities. Being a company established on a Christian foundation... Conn Construction knows that the future of our children and grandchildren depends upon the educational opportunities that they are provided. We want to build facilities where they can not only learn - but also feel a sense of pride while enjoying a safe haven from the dangers of today's society.

Recently, Conn Construction was chosen to complete major renovations and additions to all of the schools within the Lowndes County School District. And in the past, we have completed major projects for both Mississippi University for Women and Mississippi State University. One of the most cherished landmarks in Columbus is MUW's Clock Tower. In the fall of 1992, it was destroyed by a tornado. Conn Construction was provided the opportunity to rebuild and restore it back to its original state. We feel that it is just a small part of the legacy we can leave to the community.
